

Instructor Information: Eric Smiley

Mr. Smiley is the principal of Reid Wylde Engineering Ltd. on Vancouver Island, a renewable energy engineering company, and a member of Viridian Energy Co-operative, a renewable energy workers' co-operative. His academic experience includes coordinating the Green Building and Renewable Energy Technology Diploma Program at Vancouver Island University, instructing in the Alternative Energy Technology Program at NAIT and leading applied research projects in renewable energy at the BCIT Technology Center.

Mr. Smiley holds a Master's Degree in energy system modelling and is a Field Safety Representative for Solar Photovoltaic in BC. He is registered as an Electrical Engineer in the Province of BC and has over 20 years of experience in residential and small commercial renewable energy system design and installation. Mr. Smiley continues to teach renewable energy and engineering courses for various organizations, including, Solar Energy Society of Alberta, NAIT, BCIT, North Island College, Solar Energy International and CanSIA. He is an associate of ASHRAE; former chair of the NABCEP Exam committee for Photovoltaic Installers; and former member of the CSA Section 50 sub-committee for the Canadian Electrical Code.
